Way of Life!

4x4. 4 Real.

In 1968, Suzuki introduced to the world the concept of rugged and lightweight 4x4's that could go anywhere and do anything. The world has been having heaps of fun with them ever since.

Many South Africans have experienced the giant-killing capabilities of the SJ-series and Samurai. The new Jimny is improved in every aspect from the modern interpretation of the SJ-front grill to the ride, comfort and performance.

Today the Suzuki Jimny carries on that tradition in a direct line from its predecessors. You could say it has 4x4xfun in its DNA!

40 years of going anywhere, anytime!

Catch me if you can.

The Suzuki Jimny always lets you do your own thing. It's neat size makes it ideal for zipping around town and getting in and out of places bigger cars can't handle. And when it's time to get out of town, Jimny will take you to your favourite isolated beach, your secret fishing spot or your dream camping site, no matter how far away and secluded it might be.

Dynamite comes in a small package.

Don't let the Jimny's size fool you. Its got plenty of room for four occupants or you can fold down the rear seats to give you heaps of flat storage space for your gear or whatever you need to float your boat.

The reliable 16 valve 1.3L VVT engine has the power and flexibility to tackle city streets or tough off road terrain and with the high performance braking system it will give you the confidence you need in any condition.

Unlike the 'soft-roaders' that try and compete with it, the Suzuki Jimny has all the attributes of a true 4x4. Its sturdy three section ladder frame chassis means it can handle the toughest going.

The live front and rear axles and three-link coil suspension with independent shock absorbers give you better ground clearance in all conditions.

There is no mistaking the strong and unique style of the Jimny, built on 40 years of rugged 4x4 adventure!

All the right moves.

The Jimny is extremely driver friendly. On the road and in the rough, its high-performance features make handling easy for professionals and novices alike. Where you point, the Jimny goes. Its power steering provides not only welcome assistance in tight manoeuvres, but also helps keep the Jimny tracking true. The Jimny stops as smoothly and surely as it goes. High-performance, ABS brakes are utilized on all four wheels.

Compact dimensions also contribute to the Jimny's handling. In the city, they help you slip through heavy traffic and into small parking spaces with ease. In the woods, they help you squeeze between boulders and trees. Unbeaten paths are a breeze in the Jimny. You'll climb hills with confidence thanks to generous approach and departure angles and excellent traction enhanced by radial tyres with universal tread. Take the Jimny for a test drive and discover for yourself just how much fun driving can be.

The image shows the driver's side interior of a car. The dashboard is dark grey with a central infotainment screen displaying a red digital readout. Below the screen are several control knobs and buttons, some with red backlighting. The steering wheel is black with a silver logo in the center. The front seats are upholstered in a dark grey fabric with a subtle pattern. The overall design is functional and ergonomic.

Total Control

The cabin design is based on advanced ergonomic studies that determine the most natural placement and shape of all components. The stress-free driving position will keep you feeling fresh on the longest of journeys. The steering wheel is positioned just right and its contours feel comfortable in your hands. Instrument panel meters are large and clustered together to convey vital information at a glance, so you spend less time reading meters and more time with your eyes on the road. The accelerator, brake pedal and ergonomic shift lever offer refined action that enhances your control. Electric windows, mirrors and power door locks can be operated by fingertip with master controls comfortably within reach for the driver and the steering is power assisted for easier maneuverability.

Sit back & Relax.

The Jimny squeezes maximum utility from compact dimensions. Whether transporting goods or travelling with friends, the Jimny accommodates your needs. Its space-efficient layout seats four passengers in comfort. Headroom is more than ample and Suzuki managed to carve out extra inches for feet, knees and elbows. The sporty seats are large, comfortable and supportive during spirited driving. The rear seats fold back independently to make room for luggage of different shapes and sizes. When you want to take a nap, simply fold all the seats back. Entering and exiting the Jimny is easy for people of all ages thanks to wide door openings, low side sills, and a front passenger seat that slides forward all the way to make room for rear seat passengers as they board or exit. Quality craftsmanship is clearly apparent in every detail of the Jimny interior. The doors and dashboard are fully trimmed and the seats are upholstered with durable, high-quality fabric. Pockets and compartments are strategically located for easy-access storage of maps, sunglasses, tissues and other small items.

Suzuki understands that purchasing a new vehicle is a substantial investment. Our unwavering commitment to customer satisfaction is represented in our 'Suzuki Complete' programme, which includes every aspect of post-sales support, comprising the warranty, service plan, roadside assistance and a Netstar tracking device as standard.

Warranty

All Suzuki models are covered by a comprehensive manufacturers warranty against any defects for a period of 3yrs or 100 000 km.

Service Plan

The Jimny benefits from a 4 yr / 60 000 km service plan. This plan includes the replacement of oil, the oil filter, fuel filter, brake fluid, air filter and accessory belts, but excludes tyres, brakes and other wear-and-tear items.

Roadside Assistance

In addition, every new car sold incorporates a 3yr roadside assistance plan, administered and operated by the Automobile Association of SA.

Amongst its many features, this comprehensive package incorporates around-the-clock AA road patrols, battery and locksmith call-out services, mechanical and electrical break-down towing (accident towing is optional), emergency medical rescue, 24-hour car hire, overnight accommodation and vehicle repatriation.

Altech Netstar

Rounding off our all-encompassing customer-oriented mandate, Suzuki Complete sees all new cars being fitted with an Altech Netstar tracking device as standard, thereby providing a valuable enhancement to the innovative factory alarm and immobiliser included across the range. The tracking device can be activated at the time of purchase, and involves a monthly subscription fee payable to Netstar.

Suzuki Complete 4x4

Suzuki wants you to get the most from your new Jimny on- and off-road. A free 4x4 driver training course is included with the purchase of every new Suzuki Grand Vitara. Please consult your dealer for further information.

SPECIFICATIONS**1.3i MT**

ENGINE	
Type	M13A with VVT*
Number of cylinders	4
Number of valves	16
Valve gear	D9HC
Displacement	cc 1,328
Bore x stroke	mm 78.0 x 69.5
Compression ratio	9.5
Maximum power	kW @ r/min 63 @ 6,000
Maximum torque	Nm @ r/min 110 @ 4,100
Fuel distribution	Multipoint injection
*Variable Valve Timing	

TRANSMISSION

Gear ratio	1st 4.425
